Following its release in theaters, the film will be available to stream on Paramount Plus. Expect the movie to hit the streamer 45 days after its theatrical run, which should be sometime in April. It's most likely that Paramount Plus will be the main platform that will stream Avatar: The Way of Water VI.

Will Avatar: The Way of Water be on Netflix?

No, Avatar: The Way of Water will not be available on Netflix — at least not anytime soon, since it will be heading straight to Peacock after its theatrical release. In the meantime, you'll just have to wait for it to become available on the NBCUniversal-owned streaming platform.

Is Avatar: The Way of Water streaming on HBO Max?

No, Avatar: The Way of Water will not be on HBO Max since it's not a Warner Bros. movie. While the company previously released its movies on HBO Max and in theaters on the same day, they have since stopped and have implemented a 45-day window between the theatrical release and streaming release.

Is Avatar: The Way of Water Available Streaming on Paramount Plus

At the time of writing, there is no official streaming release date for Avatar: The Way of Water. However, if we look back at the gap between Avatar: The Way of Water (2023) hitting movie theaters, before becoming available to stream on Paramount Plus, we can make some guesses as to when it will be up for streaming.

Avatar: The Way of Water (2023) was released on January 14, before arriving on Paramount Plus on March 8. This means there were 53 days between the big screen release, and the streaming release. The film was also available to buy digitally a week before it landed on Paramount Plus, on March 1. With that in mind, we can expect Avatar: The Way of Water to be available to stream on Paramount Plus around May 2, 2023.

Paramount Pictures has said in the past, however, that most of their films will be available to stream exclusively on Paramount Plus after a 45-day theatrical window. If this is the case for Avatar: The Way of Water, it may arrive earlier than expected, on or around April 24, 2023.

Is Avatar: The Way of Water streaming on Prime Video?

Amazon Prime Video subscribers might be disappointed because 'Avatar: The Way of Water' is not a part of the streaming giant's library. Alternatively, you have the option to turn to similar films using your subscription, including 'Smile,' 'Bram Stoker's Dracula,' 'Let the Right One In.'

The bad news is that the movie is not likely to come to Prime Video. Paramount Pictures movies used to head to Amazon Prime Video about a year after the theatrical release, but that's changed with a lot of movies recently. Instead of heading to Prime Video, they've gone to Paramount+.

Is Avatar: The Way of Water Available On Hulu?

Viewers are saying that they want to view the new movie Avatar: The Way of Water on Hulu. Unfortunately, this is not possible since Hulu currently does not offer any of the free episodes of this series streaming at this time. It will be exclusive to the MTV channel, which you get by subscribing to cable or satellite TV services. You will not be able to watch it on Hulu or any other free streaming service.

Is Avatar: The Way of Water VI Streaming Online?

Well, not right now. In terms of the streaming release, Avatar: The Way of Water VI will most likely follow the 45-day theatrical window before being available to stream online. Due to Amazon's multi-billion dollar acquisition of MGM (the franchise's production company), it's most likely that Prime Video will be the main platform that will stream Avatar: The Way of Water VI.

With the long-belated sequel *Avatar: The Way of Water*, director James Cameron delivers a follow-up that exceeds almost all expectations, particularly with stunning visuals and a vibrant world with detail that is second to none. It's a sequel that will absolutely please fans of the original, but for those not a fan of the original's story, *Avatar: The Way of Water* might not win you over. That's because the film's plot very much follows *The Force Awakens* model, with a story structure virtually identical to the original movie. There are plenty of new characters and lots of new settings to explore, and many of the story beats are arguably done better here than in the first film, but some could also argue that the ten-year wait could and should have yielded a more original story. It seems likely that the plot of the *Avatar* films will continue to be a hotly debated topic until the next film in the series finally comes around, but rather than debate why the story of *Avatar: The Way of Water* works or doesn't, there are many parallels and callbacks between the two entries in this epic franchise to be seen.
